

# Levine Campus

Contact Levine Campus by phone at 704.330.4200, or visit the Levine campus website.

## History

The Levine Campus opened for classes in fall 1998. It was the second full-service campus to open away from the Central Campus. It is a 230,000-square-foot, mall-type design, with all services under the same roof.

Serving more than 9,300 students, the current facility is near maximum capacity with classes running seven days per week. As part of the 2013 Bond Project, the Levine Campus has added Phase III, an 88,000-square-foot, three-story building which will host 2,875 additional students.

## High Schools Near the Campus

The high schools close to the Levine Campus are Ardrey Kell, Butler, East Mecklenburg, Independence and Providence.

## Levine Middle College High School

This partnership between Central Piedmont and Charlotte-Mecklenburg Schools is designed for high school juniors and seniors who want to complete their high school graduation requirements while earning college credit through Central Piedmont. The program opened in spring 2014. As of 2017, Levine Middle College students may begin their 13th year and earn their Associate of Applied Arts or Science or technical certification to begin a career. Applications for admission may be obtained from the Principal, Mr. Joey Burch at joey.burch@cms.k12.nc.us

## Major Programs/Courses Offered

Classes offered on Levine Campus are both college credit curriculum courses and non-credit continuing education courses. Most of the curriculum classes are general education courses for students seeking transfers to four-year colleges or for students seeking two-year degrees in business administration. A wide array of Corporate and Continuing Education non-degree and non-transfer courses and programs also are offered for those wishing to acquire professional workplace credentials, training and skills or explore areas of personal interest. Corporate and Continuing Education courses have various starting and ending dates, course lengths, and subjects. They are designed to meet the needs of the community at large and range from mandatory licensure updates to personal enrichment, recreation, and leisure classes.

## Services

Services on Levine Campus include: admissions, counseling and advising, graduation, registration, college transfer, placement testing, career services, library, cashiering, financial aid/veteran's services, the Center for Military Families, Veterans, student life, disabilities counseling, tutoring, parking, security, college and career readiness, and cooperative education workplace learning (Co-op and Internships). Food service during the week is provided by Subway and Calvines Coffee.

## Facilities

Located beside a small lake, the Levine Campus has 1,497 adjacent parking spaces. The campus houses 136 full-time faculty and staff plus more than 145 part-time faculty and staff. It has more than 100 state-of-the-art smart classrooms with capacities from 18 to 95 seats. About 25 percent of classrooms are computer instruction classrooms. The student

commons area features a cyber café. The facility also includes two art rooms, two biology and three chemistry flex labs, two student technology centers, two dance/aerobics room, a fitness/weight room, a transfer resource center, an academic learning center for tutoring, a language lab, and testing and course placement services. The new Levine III building holds the Georgia Tucker Fine Arts Hall, a black box multipurpose performing arts theatre which seats 125, and a state-of-the-art Health Careers instructional center.

## Joe Hendrick Center for Automotive Technology

The Joe Hendrick Center for Automotive Technology on the Levine Campus was made possible by a generous donation from Rick Hendrick. The center is a 34,000 square foot high-tech instructional facility that houses the BMW ADP, Honda PACT and Subaru University automotive curriculum programs as well as a NATEF Master certified automotive training program. The center also is home to a GM regional training center. For those looking for a career and aspiring to be automotive technicians, the Joe Hendrick Center provides top-tier training, as well as being a resource for those technicians who seek to upgrade their automotive skills and knowledge. Electrical and fuel labs in the Joe Hendrick Center feature cutting edge automotive system training simulators that can be programmed and diagnosed. The computer lab offers students the most current repair data from OE manufacturers and aftermarket suppliers, many of which partner with the college for training. More than 30 late-model vehicles are used as training aids in lab environments. The Joe Hendrick Center is truly a full line training facility.

## Campus Dean

Dr. Edith Valladares McElroy  
Dean, Levine Campus / Business & Accounting Division / International and General Studies
