STAR - Success Through Academic Reporting

STAR: Success Through Academic Reporting, is a college-wide student success initiative. It is the college's Quality Enhancement Plan (QEP). Through this initiative, students receive Student Success Reports about their course progress at two specific points in the semester:
1) within the first few weeks (before the withdraw deadline) and,
2) at midpoint.
These STAR Student Success Reports are sent to students' CPCC email accounts.

Additional information may be obtained by visiting the STAR website.
