Exam Prep, Licensures, Professional Certifications

Corporate and Continuing Education helps students achieve professional goals of knowledge, skill or ability through established non-degree programs in college completion, industry-specific competencies or requirements and nationally recognized exam preparation. Choose from an expanded number of industry-specific programs to assist in entering a career field, getting ahead and validating job skills. Short-term and more advanced programs, including those available online, offer professional development to earn Continuing Education Units (CEU) or to keep credentials up to date.

The Job and Career Enhancement Certifications webpage at cpcc.edu/cce/job-and-career-enhancement/certifications lists some of the college’s offerings for certificates, certifications, exams and exam prep or professional licensure.

Course offerings change in response to relevant learning needs. Courses and programs are added and updated regularly to match current and future workforce development and employer demands in the Charlotte region. Areas of study include the categories above.

For help finding particular courses or programs of interest, contact Customer Service and Registration for Corporate and Continuing Education at 704.330.4223.

The list below is non-inclusive and programming is subject to change, based on industry demand and individual career planning. Check for additional courses and those available by request by contacting Customer Service and Registration for Corporate and Continuing Education at 704.330.4223.

Business, Finance and Insurance Topics

Certified Mortgage Lending Specialist (https://schedule.cpcc.edu/myschedule/show_sections/12579)
