

Management- Professional Development (NUC)

NUC 110. Nuclear Reactor Systems. 3.0 Credits. Class-3.0. Clinical-0.0.
Lab-0.0. Work-0.0

This course provides an introduction to nuclear power plants. Topics include the description and function of each major component of the primary and secondary systems. Upon completion, students should be able to demonstrate a working knowledge of major nuclear energy power systems and processes including their application during refueling operations.
