

Multiple Pathways High School Equivalency

The Multiple Pathways to High School Equivalency (MPHSE) diploma program is a standardized performance assessment program for the completion of a high school equivalency diploma. The student must demonstrate high school-level competencies in the five selected content areas. Once the student has satisfactorily completed all requirements, a high school equivalency diploma will be awarded through the North Carolina State Board of Community Colleges.

Multiple Pathways Content Areas

The five required content competency areas are:

- English Language Arts/Literacy
- Mathematics
- Science
- Social Studies
- Technology

Elements to Determine Credit

The following may be used in combination to demonstrate completion of content areas:

- High School Courses (grade C or better)
- Adult High School Courses (grade C or better)
- High School Equivalency Assessments (passing score on subject test for GED/HiSET/TASC)
- BSP Transition Courses
- NorthStar Certifications
