

Supply Chain Management

The Supply Chain Management curriculum prepares individuals for a multitude of career opportunities in distribution, transportation, warehousing, supply chain, and manufacturing organizations.

Course work includes the international and domestic movement of goods from the raw materials source(s) through production, and ultimately to the consumer. Courses in economics and finance, transportation, warehousing, inventory control, material handling, purchasing, computerization, supply chain operations, federal transportation, and safety regulations are emphasized.

Graduates should qualify for positions in a wide range of supply chain and logistics positions in government agencies, manufacturing, and service organizations. Employment opportunities include entry-level distribution, planning, material management, warehousing, inventory, transportation, international freight, and logistics.

For specific information about potential positions and wages in supply chain management employment, visit the Central Piedmont Career Coach website.

<hr/>	
Total Credits	65

No diplomas are offered in Supply Chain Management.

Supply Chain Management Technology Certificate (C25620)

Supply Chain Management Technology Certificate Specialization in Global Logistics Technology (C25620-C1)

This certificate is designed to provide the student with a concentrated course of study in the field of global logistics. Coursework includes studies in global logistics, transportation, supply chain management and import/export management. Students are expected to demonstrate knowledge of the importance of the design of a supply chain to the competitive advantage of every industry.

Upon completion of the five required courses, a certificate is awarded by the college. This certificate may be applied toward the Associate in Applied Science degree in Supply Chain Management with a concentration in Global Logistics Technology.

For more information, call the Business & Accounting Division office at 704.330.4228 or check the Business & Accounting Division website.

Major Requirements

Total Credits		16

The following is the suggested plan for when to take each course to complete the Associate in Applied Science degree, based on the program requirements of the 2022-2023 catalog. This is only a recommendation — you may take courses in another order upon consultation with your advisor. This plan is based on you starting with college-level math and English courses, starting your program in the fall, and attending full-time. You can also follow this sequence if you attend part-time. Speak with an advisor about the plan and any questions. This program might also offer diplomas or certificates; visit the catalog or contact the program for details.
