

College Transfer Associate in Science (A.S.) Degree

The Associate in Science (A.S.) degree is designed for students who plan to transfer to a four-year college or university and majors in Biology, Chemistry, Physics, or Medicine, and Engineering. The degree transfers as a block to North Carolina public universities and other institutions that participate in the Comprehensive Articulation Agreement (CAA). Electives should be selected based on the intended major. For specific requirements, consult a Transfer Advisor or the catalog of the four-year school to which transfer is intended. Electives must be chosen from transferrable coursework.

The following are suggested course plans if you would like to complete the Associate in Science and transfer to a four-year school for a variety of majors. These plans are based on the program requirements of the 2022-2023 catalog. These are only recommendations — you may take courses in another order upon consultation with your advisor. These plans

are based on you starting with college-level math and English courses, starting your program in the fall, and attending full-time. You can also follow these sequences if you attend part-time. Speak with an advisor about your plans and note that recommendations may vary depending on your intended transfer institution.
