

Mentoring and Coaching

Central Piedmont 's Mentoring and Coaching programs are committed to promoting the pursuit of academic success, increasing retention and providing essential academic resources that leads to completion. Our programs strive to inspire and motivate our students in reaching their goals through a holistic approach.

Programs available:

- Bank of America Bridge to Careers
- MAN UP Mentoring
- Opportunity Scholars
- Positive Community for Women

Mentoring and Coaching provides opportunities for skills, character, and professional development as well as help students overcome challenges. The presence of a caring individual that offers support, advice, friendship, reinforcement, and constructive examples has proved to be a powerful tool for helping students reach their potential. Our programs provide a structured and trusted relationship that brings you together with a caring instructor, staff member, or administrator that can offer guidance, support, and encouragement to help you overcome challenges, transition to college, and succeed.

As a student (or mentee) in our mentoring and coaching program, the most important thing is that you are willing to commit the time and energy to grow and learn from your mentor. You must be devoted to developing skills that will enhance you academically, professionally, and personally. You should be positive and excited about the mentoring process and put forth the effort required to receive maximum results to ensure the program is a success.
